# INTRODUCTION

## INTRODUCTION

In 2003, Dong Hyun Kim, an entrepreneur with a vision, opened the first Wasabi branch in Embankment, London. He was convinced Londoners would fall in love with sushi and he wanted to offer an efficient takeaway service, as a healthy lunchtime alternative to the humble sandwich.

With a bright, clean, modern Japanese style, Wasabi proved immediately popular with hungry Londoners in search of something new, different and healthy.

Quality is vitally important to Wasabi. Our chefs meet regularly to discuss changes and improvements to the menu ensuring food quality is never compromised. All fresh ingredients are delivered daily to the branches.

All recipes are bespoke to Wasabi. From creating a new menu, to sourcing ingredients and preparing recipes, everything in Wasabi is prepared daily in our kitchens.

## WASABI NUTRITION

Food allergy and intolerance: before ordering, please speak to our staff about your requirements.

Wasabi nutritional information is obtained from testing in accredited laboratories and information provided from Wasabi suppliers.

Every care and attention has been taken to ensure all information in this document is as accurate as possible at the time of printing.

Nutrition information values are based per 100g. As most of our products are made fresh daily, all nutrition figures are given as averages only.

All portion sizes are stated as accurate as possible but as most of our products are served fresh on site, some values may vary slightly.

Any item that contains alcohol refers to different types of cooking wine that has been used during cooking only.

Condiments (soy sauce sachet, wasabi paste sachet, pickled ginger sachet) served with any sushi and salad box sets are not calculated in the overall nutritional value for each set. For further information on sauce nutrition, please see sauce page.

## SALMON

We only ever use sustainably sourced Scottish or Norwegian salmon giving our sushi the freshest, sweetest taste!

## MADE FRESH DAILY

Our sushi is made from scratch every day using the freshest and finest ingredients. We take our motto very seriously and never keep any food back for the next day, ensuring the food you get from Wasabi is always at its best.

## TUNA

Tuna is a great source of omega 3 and is said to help lower cholesterol and blood pressure which is why we use sustainably sourced line caught yellowfin tuna in our dishes.
